

Zombie Survival Course

Are you ready for Halloween? What about zombies?

When the zombies come we want you to be ready. We will teach you how to survive. We will teach you everything you need to know, such as zombie avoidance tactics, finding and fortifying shelter, strength in numbers, caring for the wounded and much more. Join us in October on a teacher workday for a fun look at what it means to be prepared for the worst case scenario - ZOMBIES!

This program is hands-on and will take place mostly outdoors. Please dress for the weather and wear comfortable shoes
